

A detailed historical illustration of Mangazeya, a 17th-century Russian polar city in Siberia. The city is depicted as a fortified settlement with numerous wooden houses, churches with onion domes, and a prominent stone wall. It is situated on a riverbank, with several large sailing ships (galleons) docked at the wharves and others in the water. The background shows a dense forest of evergreen trees on a hillside.

МАНГАЗЕЯ

In implementing projects in the real economy, the Mangazeya Group of Companies is guided by the following principles:

# HONESTY RESPONSIBILITY RESULT

The presentation was updated on May 5, 2022

Mangazeya is the first Russian polar city of the 17th century in Siberia, which disappeared after 1672.
